

**PURPOSE:** The strategy builds students' knowledge of the topic.

## Strategy 5 Instructions for Picture Prediction

1. Select pictures about the topics:
  - If reading about the Plague, GOOGLE images associated with the PLAGUE.
  - If reading about Coral Reefs, GOOGLE images associated with the CORAL REEFS.
2. Show pictures to the student and provide terms for the pictures; discuss the idea with the student.

Ask questions like: What do you think about these pictures? How would feel if you saw...?
3. Ask the student to predict what the text will be about. What do you think the story will be about?

*The sample pictures on Page 2 can be used with the A-Z Reader, The Plague!*
